SECTION 1. SUBSTANCE/MIXTURE AND MANUFACTURER IDENTIFICATION

1.1 Product identifier:
Business name: Refractory mastic
CAS no: n/a (mixture) EC (EINECS) no: n/a (mixture)
Index no: n/a (mixture) REACH registration no: N/A for mixtures
Other names: None.

1.2 Designed applications of substance or mixture and non-recommended applications:
Building industry – refractory fireclay mastic with chemical bond. It is designated for masonry and luting of fireclay and fibrous materials and to form levelling or protective layers.

1.3 Detailed data of material safety data sheet supplier:
Manufacturer: P-D Refractories CZ a.s.
Address: Nádražní 218, 679 63 Velké Opatovice
Phone: +420 516 493 111, Fax: +420 516 477 338
Email address of competent person responsible for material safety data sheet: mazura@mslz.cz

1.4 Emergency phone:
Toxicological information centre – +420 224919293, 224915402
Na Bojišti 1, 128 08 PRAGUE 2

SECTION 2. HAZARD IDENTIFICATION

2.1 Classification of substance or mixture:

2.1.1 Classification according to the Dangerous preparation Directive (1999/45/EC):
This product is classified in compliance with the wording of Regulation of the European Parliament and of the Council (EC) no 1272/2008 CLP by procedure pursuant to the Dangerous Preparation Directive (1999/45/EC) and Act no 350/2011 Coll. as dangerous.
Classification: Xi – irritant
R-phrases: R38, R41
Note: For the full wording of the relevant R phrases see below

2.1.2 Classification pursuant to Regulation of the European Parliament and of the Council (EC) no 1272/2008 CLP:
Classification pursuant to CLP is not performed for transitory period.

2.2 Identification elements:

Symbol:

| Xi | irritant |

Other compulsory reporting data Not required.

Contains: (Note: Optional for this hazard category)
Silicic acid, Sodium salt - Sodium silicate (EC: 215-687-4)

R- phrases:
R 38 Irritant to the skin
R 41 Risk of severe eye damage

S- phrases:
S 26 In the case of eye contact immediately profoundly wash the eyes with plenty of water and seek medical advice.
S 36/37/39 Use appropriate protective clothes, protective gloves and goggles or face mask.

2.3 Other hazards: None are specified

SECTION 3. COMPOSITION/COMPONENT INFORMATION

3.1. Description and characteristics:
Spontaneously air-setting wet refractory mastic with water glass based on refractory grog. Non-hardening mastic with chemical bond contains 25-45% of non-fibrous aluminium oxide (CAS: 1344-28-1, EC: 215-691-6), 0-30% of silicon dioxide – silica (CAS: 14808-60-7, EC:238-878-4), 0-5% of cristobalite (CAS: 14464-46-
1. EC: 238-455-4).

3.2. Substances dangerous for health or the environment:

<table>

| Silicic acid, Sodium salt [Sodium silicate] | max. 11 | 1344-09-8  
215-687-4  
Not specified  
Not specified | Xi; R 38-41  
1(2) | Skin Irrit.2, H315  
Eye Dam. 1.H318  
1(3) |

Notes:
1) Full wording of the R and H phrases and classification symbols is included in section 16.
2) Not classified in Annex I to Directive 67/548/EEC, manufacturer ´s classification is used.
3) Not classified in Annex VI to Regulation 1272/2008/EC, manufacturer ´s classification is used.

Substances with workplace exposure limits:
See data in 8.1.
Persistent, bio-accumulative and toxic, highly persistent and highly bio-accumulative substances:
The product does not contain PBT and vPvB type substances.

SECTION 4. FIRST AID INSTRUCTIONS

4.1 First aid description:

4.1.1 First aid instructions:

General instructions: Immediate medical assistance is needed in the case of swallowing or eye contact.

Observe rules of work hygiene. Minimise direct contact of the skin and the mucous membranes of workers with the product. Seek medical assistance in the case of severe symptoms.

Inhalation: This way of entry to the organism is not likely.

Skin contact: Remove the exposed person away from the source of contamination. Remove contaminated clothing and boots, clean both before further use. Quickly and carefully wash the exposed skin with warm water and soap or other skin cleansing agents and treat with a suitable cream.

Eye contact: Immediately wash with a stream of lukewarm water at least for 15 minutes with forced eye opening. After rinsing use a suitable eye lotion. Wash the eye surroundings with water too. Seek medical assistance, continue with eye washing until arrival of a doctor.

Swallowing: Never evoke vomiting in unconscious person! Do not serve drinks to unconscious person! Seek immediate medical assistance. Carefully rinse the mouth with water. Serve a couple of glasses of water or milk if immediately available.

4.1.2 Additional data:
a) Immediate medical assistance is needed in the case of swallowing or eye contact.
b) In the case of inhalation moving the exposed person to fresh air is recommended.
c) Remove contaminated parts of clothing.
d) Recommended personal protective means to persons providing first aid: See section 8

4.2 Major acute and delayed symptoms and effects:
The mastic is in plastic state, does not irritate the respiratory tract.
It may cause skin irritation.
Exposed eye irritation.
Feeling of burning mouth after swallowing. Gastrointestinal symptoms include nausea and vomiting.

4.3 Instruction concerning immediate medical attention and special treatment:
Visit a doctor in the case of nausea.

SECTION 5. FIRE-FIGHTING MEASURES

5.1 Extinguishing agents: Suitable: Non-flammable. Packaging material used may be flammable, use appropriate extinguishing agent depending on the surrounding fire.
Non-suitable: None are specified.

5.2 Special hazards following from the substance or mixture: None are known.
5.3 Instructions for fire-fighters: Use equipment depending on the surrounding fire. Non-flammable material.

### SECTION 6. PRECAUTIONS IN CASE OF ACCIDENTAL LEAK

6.1 Precautions for personnel protection, protective means and emergency procedures:

6.1.1 For staff except for emergency intervention staff
Restrict unauthorised access to the exposed area until emergency elimination. In the case of large leaks secure the area against unauthorised access.

6.1.2 For emergency intervention staff:
Prevent further spread of leaking product. Use personal protective equipment (see section 8). Other special precautions are not necessary.

6.2 Environment protection measures: No acute negative effects on the environment. Place the devalued product in specified waste collection containers.

6.3 Methods and materials for leak minimisation and cleaning: Place leaked product in specified waste collection containers. Other special precautions are not necessary.

6.4 References to other sections: Personal protective equipment – section 8.

### SECTION 7. STORAGE AND HANDLING

7.1 Precautions for safe handling:

7.1.1 Particular recommendations: Prevent leakage of product during handling.

7.1.2 General hygienic instructions for work: Use personal protective equipment where necessary. Other special precautions are not necessary.

7.2 Conditions for safe storage: Store in a dry place. Storage limits: None are specified.

7.3 Specific final application requirements: No other requirements and instructions except for the data included in section 1.2.

### SECTION 8. EXPOSURE LIMITATIONS/PERSOAL PROTECTIVE EQUIPMENT

8.1 Control parameters: Governed by Government Regulation no 361/2007 Coll., stipulating conditions of occupational health protection, as amended. Annex 3:

No hygienic limits are specified for the product. Due to the nature of the product the following values may be applied:

For dust with prevailing fibrogenic effect:

<table>
<thead>
<tr>
<th>Substance</th>
<th>PELr (mg.m⁻³)</th>
<th>PELc (mg.m⁻³)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Silica, cristobalite</td>
<td>0.1</td>
<td>--</td>
</tr>
<tr>
<td>Other silicates</td>
<td>2.0</td>
<td>10 : Fᵢ</td>
</tr>
<tr>
<td>(Fᵢ = respirable fraction)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>For dust with potential fibrogenic effect:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Substance</td>
<td>PELc (mg.m⁻³)</td>
<td></td>
</tr>
<tr>
<td>Amorphous SiO₂</td>
<td>4.0</td>
<td></td>
</tr>
<tr>
<td>Other substance</td>
<td>4.0</td>
<td></td>
</tr>
<tr>
<td>Aluminium and its oxides (except for gamma Al₂O₃)</td>
<td>10</td>
<td></td>
</tr>
</tbody>
</table>

8.2 Exposure limitations:

8.2.1 Appropriate technical controls: Ventilation – Where dust content in the air may be controlled with technical methods (local exhaustion, ventilation etc.)

8.2.2 Individual protective measures including personal protective equipment:

Hygienic conditions: Prevent eye contact, do not inhale.
Do not stay in places with higher dust concentrations without cause
Observe routine personal hygiene before eating, drinking, toilet use and after work.

**Personal protective equipment:**
- **Eye and face protection:** Use protective goggles with side pieces in the places of excessive dust formation.
- **Skin – hand protection:** Protective work gloves (for example leather).
- **Skin – other protection:** Work clothes and boots.
- **Respiratory tract protection:** In the case of exceeded NPK exposure limit use a respirator with filter against fibrogenic dust.

**Thermal hazard:** N/A

**8.2.3 Limitations of environment exposure:**
Prevent flying dust during cutting, grinding, breaking etc.

### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES
The information relates to mixture.

**9.1 Information about basic physical and chemical properties**

<table>
<thead>
<tr>
<th>Property</th>

<td>Not specified.</td>
</tr>
<tr>
<td>s) Explosive properties</td>
<td>None.</td>
</tr>
<tr>
<td>t) Oxidisation properties</td>
<td>None.</td>
</tr>
</tbody>
</table>

**9.2 Other information**

**Solvent content (VOC):** 0% (according to definition of the air protection act)

**Note:**
- "Not specified": irrelevant for the product
- "None": not available for the product.

### SECTION 10. STABILITY AND REACTIVITY

**10.1 Reactivity:** No decomposition under appropriate storage and use conditions.
**10.2 Chemical stability:** The product is stable under normal conditions.
**10.3 Possible dangerous reactions:** Reaction with strong acids.
**10.4 Conditions to be avoided:** None.
**10.5 Incompatible materials:** Strong acids.
**10.6 Dangerous decomposition products:** None.
SECTION 11. TOXICOLOGICAL INFORMATION
11.1 Information about toxicological effects:
Ways of entry to organism: No acute or chronic effects when entering through common ways of entry.
Acute toxicity:
- LD$_{50}$, oral, rat (mg.kg$^{-1}$): not specified
- LD$_{50}$, dermal, rat or rabbit (mg.kg$^{-1}$): not specified
- LC$_{50}$, inhalation, rat, for aerosols or particles (mg.kg$^{-1}$): not specified
- LC$_{50}$, inhalation, rat, for gases and vapours (mg.kg$^{-1}$): not specified

Swallowing: Swallowed product may damage the digestive tract.
Skin contact: Irritates
Eye contact: May cause quick damage to the eyes.
Sensitisation of respiratory tract / skin: Not classified.
Mutagenicity in embryonic cells: Not classified.
Carcinogenicity: Not classified.
Toxicity for reproduction: Not classified.
Toxicity for specific target organs – single exposition: STOT - repeated expositions: Not classified.
Dangers on inhalation: It can irritate in dry form.
Other information: The product may contain crystalline silica. Product dust inhalation is considered a source of minimum risk of lung fibrosis (silicosis). Chronic obstructive lung disorder is only suspected after very long exposition times (years) under exposure concentrations exceeding the permitted limits. Carcinogenicity of cristobalite for humans has not been unambiguously proved.

SECTION 12. ECOLOGICAL INFORMATION
12.1 Toxicity for aqueous organisms: A natural material by origin, no assumed toxic effects on aqueous organisms.
12.2 Persistence and degradability: The product is inert and does not degrade.
12.3 Bioaccumulation potential: Data not available.
12.4 Mobility in soil: Data not available.
12.5. Results of PBT and VPvB assessment: Not required.
12.6. Other unfavourable effects: The product is inert and other potential negative effects are connected with mechanical effects of dust formation.

SECTION 13. DISPOSAL INSTRUCTIONS
13.1 Methods of waste disposal: Dumping on specified dumps. Disposal by release to sewerage: Excluded by the product nature.
Waste classification according to Decree 381/2001 Coll. (Waste Catalogue):
10 12 01 Waste ceramic material before thermal processing, cat. O.
13.2 Methods of contaminated waste disposal: According to the nature of package construction material the waste is classified in group 15 01 Packaging materials (including separately collected communal waste packaging materials), cat. O. Empty package without content residues may be disposed of by procedures dictated by the construction material of the package (repurchase, recycling, dumping, incineration).
13.2 Appropriate methods of disposal of substance of mixture:
Decree no 381/2001 Coll. (Waste Catalogue)
Decree no 383/2001 Coll. on waste Disposal Details

SECTION 14. TRANSPORT INFORMATION
14.1 UN no: Not subject to regulations for dangerous object transport.
14.2 UN name for consignment: Not subject to regulations for dangerous object transport.
14.3 Class/classes of dangers for transport:
Not subject to regulations for dangerous object transport.
14.4 Package group:
Not subject to regulations for dangerous object transport.
14.5 Environment hazards:
Not subject to regulations for dangerous object transport.
14.6 Special safety precautions for users:
Not subject to regulations for dangerous object transport.
14.7 Bulk transport according to Annex II MARPOL 73/78 and IBC regulation:
Not subject to regulations for dangerous object transport.

SECTION 15. REGULATORY INFORMATION
15.1 Regulations concerning safety, health and environment/specific legislation concerning substance or mixture
Act no 254/2001 Coll. on Waters (Water Act), as amended
Act no 185/2001 Coll., on Waste, as amended
Act no 201/2012 Coll., on Air Protection
Act no 258/2000 Coll., on Public Health Protection, as amended
Act no 350/2011 Coll. of 27 October 2011 on Chemical Substances and Mixtures and on amendment to certain other acts (Chemical Act)
Decree no 402/2011 Coll. on Assessment of Dangerous Properties of Chemical Substances and Mixtures and Packaging and Labelling of Dangerous Chemical Mixtures
ČSN 75 3415 Water Protection against Oil Substances. Objects for Oil Substance Handling and Storage
Government Regulation no 361/2007 Coll., as amended, stipulating conditions for occupational health, including PEL and NPK exposure limits (see 8 above).

15.2 Chemical safety assessment
There are no available data for assessment of safety of chemical substances for this material.

SECTION 16. OTHER INFORMATION

Important literature references and data sources:
Data contained in this material safety data sheet were compiled from materials of the manufacturer and on the basis of effective CR and EU legislation.
In the case of mixture information about which information evaluation method according to Article 9 of Regulation (EC) no 1272/2008 was used for classification purposes:
Approximation according to hazards of components and physical nature of product.

Instructions concerning all training courses for staff responsible for human health and environment protection:

Instruction for work with the product should be included in the occupational safety training system (new worker orientation, on-site training, periodic training) according to particular site conditions.

Recommended limitations for use:

Use exclusively for purposes specified by the manufacturer.

Other information:

The above data describe exclusively safety requirements for products and are based on current knowledge. They do not describe product properties in the sense of quality parameters and legislative regulations for warranty compliance.

End of safety data sheet.
