SECTION 1. SUBSTANCE/MIXTURE AND MANUFACTURER IDENTIFICATION

1.1 Product identifier:

- Business name: Refractory mastic
- Product group: RUDOKIT
- Quality class: ALUCHROM, RK85-04PV

1.2 Designed applications of substance or mixture and non-recommended applications:

Building industry – wet refractory mastic with a chemical binding agent. It is designed for masonry work and sealing refractory and fibrous materials and for forming a levelling or protective layer.

1.3 Detailed data of material safety data sheet supplier:

- Manufacturer: P-D Refractories CZ a.s.
- Address: Nádražní 218, 679 63 Velké Opatovice
- Phone: +420 516 493 111, Fax: +420 516 477 338
- Email address of competent person responsible for material safety data sheet: Milan.Mazura@pd-group.com

1.4 Emergency phone:

Toxicological information centre +420 224919293, 224915402
Na Bojišti 1, 128 08 PRAGUE 2

SECTION 2. HAZARD IDENTIFICATION

2.1 Classification of substance or mixture:

The product is not classified as hazardous pursuant to Dangerous Preparation Directive (1999/45/EC) nor pursuant to Regulation of the European Parliament and of the Council (EC) no 1272/2008 CLP.

2.2 Identification elements:

The product is not subject to compulsory identification.

2.3 Other hazards:

None are specified.

SECTION 3. COMPOSITION/COMPONENT INFORMATION

3.1 Description and characteristics:

3.2. Substances dangerous for health or the environment:

<table>
<thead>
<tr>
<th>Name of component</th>
<th>Concentration % mass</th>
<th>CAS EC Index number Registration number</th>
<th>Classification according to 1272/2008/EC</th>
</tr>
</thead>
<tbody>
<tr>
<td>Orthophosphate acid 28%</td>
<td>max. 8</td>
<td>7664-38-2, 231633-2, 015-011-00-6</td>
<td>Skin. Corr. 1B, H314</td>
</tr>
</tbody>
</table>

Note:

The complete wording of the stated R and H clauses and classification symbols are provided in Section 16.

Substances with workplace exposure limits:

See data in 8.1.

Persistent, bio-accumulative and toxic, highly persistent and highly bio-accumulative substances:

The product does not contain PBT and vPvB.

SECTION 4. FIRST AID INSTRUCTIONS

4.1 First aid description:
4.1.1 First aid instructions:

**General instructions:** Observe rules of work hygiene when working with this material. In the case of severe symptoms seek medical advice. Immediate medical attention is not necessary.

**Inhalation:** The sealant is in a plastic state, it does not irritate airways.

**Skin contact:** Remove the exposed person away from the source of contamination. Remove contaminated clothing and boots, clean both before further use. Quickly and carefully wash the exposed skin with warm water and soap or other skin cleansing agents and treat with a suitable cream.

**Eye contact:** Wash with plenty of lukewarm water. After rinsing use a suitable eye lotion. Wash the eye surroundings with water too. In the case of eye injury seek medical attention.

**Swallowing:** Never evoke vomiting in unconscious person! Do not serve drinks to unconscious person! Rinse the mouth with water carefully, drink a couple of glasses of water.

4.1.2 Additional data:

a) Immediate medical attention is recommended in the case of swallowing.

b) In the case of inhalation moving the exposed person to fresh air is recommended.

c) Remove contaminated parts of clothing.

d) Recommended personal protective means to persons providing first aid: See section 8

4.2 Major acute and delayed symptoms and effects:

- It may cause skin irritation.
- Exposed eye irritation even burning.
- A burning sensation in the mouth upon ingestion. Gastrointestinal symptoms include nausea, vomiting.

4.3 Instruction concerning immediate medical attention and special treatment:

- Visit a doctor in the case of nausea.

SECTION 5. FIRE-FIGHTING MEASURES

5.1 Extinguishing agents: Suitable: Non-flammable. Packaging material used may be flammable, use appropriate extinguishing agent depending on the surrounding fire.

- Non-suitable: None are specified.

5.2 Special hazards following from the substance or mixture: None are known.

5.3 Instructions for fire-fighters: Use equipment depending on the surrounding fire. Non-flammable material.

SECTION 6. PRECAUTIONS IN CASE OF ACCIDENTAL LEAK

6.1 Precautions for personnel protection, protective means and emergency procedures:

6.1.1 For staff except for emergency intervention staff

- Restrict unauthorised access to the exposed area until emergency elimination. In the case of large leaks secure the area against unauthorised access.

6.1.2 For emergency intervention staff:

- Prevent further dust spread through the air. Use personal protective equipment (see section 8). Other special precautions are not necessary.

6.2 Environment protection measures: No acute negative effects on the environment. Prevent further dust spread through the air. Place the devalued product in specified waste collection containers.

6.3 Methods and materials for leak minimisation and cleaning: Spilled product should be placed in designated waste containers. Other special precautions are not necessary.

6.4 References to other sections; Personal protective equipment – section 8.

SECTION 7. STORAGE AND HANDLING

7.1 Precautions for safe handling:

7.1.1 Particular recommendations: Prevent leakage of product during handling.

7.1.2 General hygienic instructions for work: Use personal protective equipment where necessary. Other special precautions are not necessary.

7.2 Conditions for safe storage: Store in a dry place. Storage limits: None are specified.

7.3 Specific final application requirements: No other requirements and instructions except for the data included in section 1.2.
SECTION 8. EXPOSURE LIMITATIONS/PERSONAL PROTECTIVE EQUIPMENT

8.1 Control parameters: Governance by Government Regulation no. 361/2007 Coll., stipulating conditions of occupational health protection, as amended, Annex 3:

No hygienic limits are specified for the product.

With regard to the character of the preparation, it is possible to use the following values for conditions when dust is produced (i.e. division and working of the hardened compound):

For dust with prevalently fibrogenic effect:

<table>
<thead>
<tr>
<th>Substance</th>
<th>PELₚ (mg.m⁻³)</th>
<th>PELₜ (mg.m⁻³)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Quartz, cristobalite</td>
<td>0.1</td>
<td>--</td>
</tr>
<tr>
<td>Other silicates (Fᵢ = respirable fraction)</td>
<td>Fᵢ ≤ 5%</td>
<td>2.0</td>
</tr>
<tr>
<td>For dust with potential fibrogenic effect:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Substance</td>
<td>PEL (mg.m⁻³)</td>
<td>(total fraction)</td>
</tr>
<tr>
<td>Amorphous SiO₂</td>
<td>4.0</td>
<td></td>
</tr>
</tbody>
</table>

8.2 Exposure limitations:

8.2.1 Appropriate technical controls: Ventilation – Where dust content in the air may be controlled with technical methods (local exhaustion, ventilation etc.)

8.2.2 Individual protective measures including personal protective equipment:

Hygienic conditions: Prevent eye contact, do not inhale.
Do not stay in places with higher dust concentrations without cause.
Observe routine personal hygiene before eating, drinking, toilet use and after work.

Personal protective equipment:

Eye and face protection: Use protective goggles with side pieces in the places of excessive dust formation.

Skin – hand protection: Protective work gloves (for example leather).
Skin – other protection: Work clothes and boots.

Respiratory tract protection: In the case of exceeded NPK (exposure limit) use a respirator with filter against fibrogenic dust.

Thermal hazard: N/A

8.2.3 Limitations of environment exposure:

Prevent flying dust during cutting, grinding, breaking etc.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

The information relates to mixture.

9.1 Information about basic physical and chemical properties:

a) Appearance: Solid state - green plastic compound.
b) Odour: None.
c) Odour threshold: Not specified.
d) pH: 1-3.
e) Melting / solidification point: Not specified.
f) Initial boiling point and range: Not specified.
g) Ignition point: Non-flammable.
h) Evaporation speed  
Not specified.
i) Flammability (solid subst., gas)  
Non-flammable.
j) Upper/lower limit of flammability or explosiveness  
Not specified.
k) Vapour pressure  
Not specified.
l) Vapour density  
Not specified.
m) Relative density  
2.5 – 3.5 g/cm³ (bulk density)
n) Solubility  
Non-soluble.
o) Differentiation coefficient: n-octanol/water  
Not specified.
p) Self-ignition temperature  
Non-flammable.
q) Decomposition temperature  
Not specified.
r) Dynamic viscosity  
Not specified.
s) Explosive properties  
None.
t) Oxidisation properties  
None.
u) Decomposition temperature  
Not specified.

Note:  
"Not specified": irrelevant for the product  
"None": not available for the product.

SECTION 10. STABILITY AND REACTIVITY

10.1 Reactivity:  
No decomposition under appropriate storage and use conditions.
10.2 Chemical stability:  
The product is stable under normal conditions.
10.3 Possible dangerous reactions:  
Reaction with strong alkalis.
10.4 Conditions to be avoided:  
None.
10.5 Incompatible materials:  
Strong alkalis.
10.6 Dangerous decomposition products:  
None.

SECTION 11. TOXICOLOGICAL INFORMATION

11.1 Information about toxicological effects:

Ways of entry to organism: No acute or chronic effects when entering through common ways of entry.

a) Acute toxicity:
- LD₅₀, oral, rat (mg.kg⁻¹): not specified
- LD₅₀, dermal, rat or rabbit (mg.kg⁻¹): not specified
- LC₅₀, inhalation, rat, for aerosols or particles (mg.kg⁻¹): not specified
- LC₅₀, inhalation, rat, for gases and vapours (mg.kg⁻¹): not specified

Swallowing: May damaged the digestive tract if swallowed.

Skin contact:  
Irritant.

Eye contact  
Can cause rapid eye damage.

Sensitisation of respiratory tract / skin:  
Not classified.

Mutagenicity in embryonic cells:  
Not classified.

Carcinogenicity:  
Not classified.

Toxicity for reproduction:  
Not classified.

Toxicity for specific target organs – single exposition:

Toxicity for specific target organs – multiple expositions:  
STOT - repeated expositions: Not classified.

Dangers on inhalation:  
The dry form can irritate.

Other information: The product may contain crystalline quartzite. Product dust inhalation is considered a source of minimum risk of lung fibrosis (silicosis). Chronic obstructive lung disorder is only suspected after very long exposition times (years) under exposure concentrations exceeding the permitted limits. Carcinogenicity of cristobalite for humans has not been unambiguously proved.
SECTION 12. ECOLOGICAL INFORMATION
12.1 Toxicity for aqueous organisms: A natural material by origin, no assumed toxic effects on aqueous organisms.
12.2 Persistence and degradability: The product is inert and does not degrade.
12.3 Bioaccumulation potential: Data not available.
12.4 Mobility in soil: Data not available.
12.5. Results of PBT and VPvB assessment: Not required.
12.6. Other unfavourable effects: The product is inert and other potential negative effects are connected with mechanical effects of dust formation.

SECTION 13. DISPOSAL INSTRUCTIONS
13.1 Methods of waste disposal: Dumping on specified dumps. Disposal by release to sewerage: Excluded by the product nature.
Waste classification according to Decree 93/2016 Coll. (Waste Catalogue):
10 12 01 Waste ceramic material before thermal processing, cat. O.
13.2 Methods of contaminated waste disposal: According to the nature of package construction material the waste is classified in group 15 01 Packaging materials (including separately collected communal waste packaging materials), cat. O. Empty package without content residues may be disposed of by procedures dictated by the construction material of the package (repurchase, recycling, dumping, incineration).
93/2016 Coll., On the Waste Catalogue
Decree no 383/2001 Coll. on waste Disposal Details

SECTION 14. TRANSPORT INFORMATION
14.1 UN no: Not subject to regulations for dangerous object transport.
14.2 UN name for consignment: Not subject to regulations for dangerous object transport.
14.3 Class/classes of dangers for transport: Not subject to regulations for dangerous object transport.
14.4 Package group: Not subject to regulations for dangerous object transport.
14.5 Environment hazards: Not subject to regulations for dangerous object transport.
14.6 Special safety precautions for users: Not subject to regulations for dangerous object transport.
14.7 Bulk transport according to Annex II MARPOL 73/78 and IBC regulation: Not subject to regulations for dangerous object transport.

SECTION 15. REGULATORY INFORMATION
15.1 Regulations concerning safety, health and environment specific legislation concerning substance or mixture
Act no 254/2001 Coll. on Waters (Water Act), as amended
Act no 185/2001 Coll., on Waste, as amended
Act no 201/2012 Coll., on Air Protection
Act no 258/2000 Coll., on Public Health Protection, as amended
Act no 350/2011 Coll. of 27 October 2011 on Chemical Substances and Mixtures and on amendment to certain other acts (Chemical Act)
Government Regulation no 361/2007 Coll., as amended, stipulating conditions for occupational health, including PEL and NPK exposure limits (see 8 above).

15.2 Chemical safety assessment
There are no available data for assessment of safety of chemical substances for this material.

**SECTION 16. OTHER INFORMATION**
Data on amendments and revisions:

Impt03.rntm literature references and data sources: Data contained in this material safety data sheet were compiled from materials of the manufacturer and on the basis of effective CR and EU legislation. In the case of mixture information about which information evaluation method according to Article 9 of Regulation (EC) no 1272/2008 was used for classification purposes:

Approximation according to hazards of components and physical nature of product.

List of relevant standard phrases and instructions for safe use. Full wording of all phrases and instructions not included in sections 2 to 15:

Symbols of CLP classification:
Skin. Corr. 1B Corrosiveness/irritability of skin, Cat. 1B

H clauses:
H314 Causes severe skin burns and eye damage.

Instructions concerning all training courses for staff responsible for human health and environment protection:
Staff should be informed about the principles of work with the product and required personal protective equipment in the context of regular OHS training.

Recommended limitations for use:
Use exclusively for purposes specified by the manufacturer.
The following recommendations should be preserved when handling the product. For the sake of unification the recommendations are formulated in the form of P-phrases (Instructions for safe handling):
P262 Avoid contact with eyes, skin or clothing.
P302+P352 DURING SKIN CONTACT: Wash with plenty of soap and water.
P280 Wear protective gloves / protective clothing / eye protection / face protection.

Other information:
The above data describe exclusively safety requirements for products and are based on current knowledge. They do not describe product properties in the sense of quality parameters and legislative regulations for warranty compliance.

End of material safety data sheet.
